

Jump Start Your Day with a Cup of our Healthy Coffee!

12oz Healthy Coffee

The World's Finest Antioxidant Healthy Coffee!

Antioxidants are a specialized compound that neutralize molecules called free radicals in our body. When too many free radicals build up in the body, they start to damage cells and can cause cancer and health disease. Numerous studies in recent years have touted the benefits of eating or drinking supplements high in antioxidants to ward off such diseases. One drink we feel can help is our superior antioxidant healthy coffee. BodyAlive's Healthy Coffee provides more than just a morning jolt. We infuse the finest 100% Arabica coffee beans (rich in antioxidants) with powerful exotic antioxidant ingredients like Acai Berry extract - from the Amazon Rain Forest. Known as the "Wonder Food" it has 10 times the antioxidant benefits of grapes and twice that of blueberries. Mangosteen fruit extract, known as the "Queen of Fruit" is packed with antioxidants and phytonutrients that demonstrate impressive health benefits.

True Goji berry extract, one of the most nutrient dense fruits on Earth, contains a variety of antioxidants, amino acids and polysaccharides. Also in our Healthy Coffee blend are 2 of the most powerful immune-supporting medicinal mushrooms. The first mushroom extract called Reishi or Ganoderma has been used for its superior antioxidants and polysaccharide health benefits. The second mushroom extract is called Chaga. Known as the "King of Herbs" it contains more antioxidants than any other fungi or mushroom on Earth! Healthy Coffee also contains many more antioxidant-rich fruit extracts and comes in a delicious medium roast blend. Brew a cup today and put the power of the world's finest healthy coffee to work for you today!
